The Los Angeles Delegation.  
SACRAMENTO, February 8.—Biclerly has introduced a bill levying a tax of 25 cents on \$100 for the maintenance of public schools. His amendment to Senate bill No. 49 was defeated, providing that 50 per cent of the tax raised for the actual maintenance of the University should be applied to permanent improvements of the same.

The Governor will not act for several days in the appointment of the Judges. White will figure in naming them. No meeting has been held of the Los Angeles delegation on the subject. The names mentioned in the *Tribune* are not the general choice here.

Both Made Happy.  
SACRAMENTO, February 8.—The select committee has exonerated the Stockton Mail correspondent and expresses confidence and sympathy for the Lieutenant-Governor.

Irrigation in the Senate.  
SACRAMENTO, February 8.—On Senator White's motion Wright's irrigation bill as amended is reported favorably to-night. It is a copy of the Senate bill by Abbott.

## LEGISLATIVE.

## THE SENATE.

SACRAMENTO, February 8.—Moffit presented the report of the special committee appointed to investigate the correspondence of the Stockton Mail, who has charged with having libeled the president of the Senate. It found that the correspondent had been guilty of no misconduct and was a gentleman. The report was adopted.

Amendment to the Assembly bill levying a tax of one cent for the support of the State University were concurred in.

SACRAMENTO, February 8.—At two o'clock Wilson called up his motion to consider the vote by which the Constitutional amendment exempting grow-

ing vines and fruit trees from taxation was lost. McDonnell's bill had introduced the measure, submitted an amendment providing for exempting vines under three years of age and fruit trees under five years. McDonnell's amendment was adopted and the bill was then passed. It received 37 yeas and 30 nays, and was again defeated, not having secured the constitutional two-thirds majority.

County Appointment of School Money.  
SACRAMENTO, February 8.—The State superintendent of Public Instruction has apportioned the State school moneys to the various counties. San Francisco receives \$435,584.52; Alameda, \$118,767.76; Marin, \$113,929.76; Los Angeles, \$66,200; Santa Clara, \$61,681.20; Fresno, \$24,576.04; Colusa, \$19,533.36.

## THE NEW SCHEDULE.

## On Trains Between San Francisco and Los Angeles.

SAN FRANCISCO, February 8.—An important change of time table was initiated this morning on the Southern Pacific line between San Francisco, Los Angeles and El Paso, by which the daily train service between these points is increased and the time lessened. The Southern Pacific's Atlantic express, which has up to the present left this city at 3:30 P. M., arriving at Los Angeles at 2:10 P. M. the following afternoon, will in the future leave here at 9:30 A. M., reaching Los Angeles at 7:30 A. M., effecting a saving of fifty minutes between San Francisco and Los Angeles. The express train leaving this city at 3:30 P. M. will in the future perform the route heretofore done by the 9:30 A. M. train to Tulare, but instead of stopping there will run right on to Los Angeles, arriving there at 1:40 A. M., thus saving two and one-half hours on the old time. An additional express train leaves Los Angeles for San Francisco daily at 1:30 P. M., arriving in San Francisco at 11:40 A. M. This gives Los Angeles a double daily train service with San Francisco.

A Million and a Half for Education.  
SACRAMENTO, February 8.—The State School Superintendent has apportioned \$1,528,441.24 to the public schools of the state, giving \$5.15 to each census child.

The Inter-State Commission.  
SAN FRANCISCO, February 8.—An Examiner Washington special says: The President has made no decision as yet regarding the Inter-State Commerce Commission, nor will he until he has had ample time to weigh the merits of different candidates. It is regarded as very probable that he will be influenced more or less in the matter by the judgment of Messrs. Callum and Reagan, the fathers of the bill. The President sent Mr. Reagan a communication today, telling him he would like to consult with him to-morrow afternoon concerning the appointment of ex-Governor Ireland of Texas, whom it is said Mr. Reagan desires should have a place on the Commission. Senator Callum has not been consulted, but it is believed that he will be unless he should preemptorily decline.

The Amazon Wins.  
SAN FRANCISCO, February 8.—About 1500 people assembled in the Mechanics Pavilion this evening to witness the mounted sword contest between Madame "Jaguarine" and Sergeant Owen Davis. The result was favorable to the Amazon, her score standing eleven points to nine for her opponent.

The Mathews-Hunter Match.  
SAN BERNARDINO, February 8.—The Opera House is crowded to-night to see the wrestling match between Senator Mathews of San Francisco and W. A. Hunter of New Orleans, for \$1000—five rounds catch-as-catch-can. Mathews won the second, third and fifth falls and the match.

Tulare Opposes Division.  
TULARE, February 8.—A mass meeting was held here to denounce the project to divide the county. Strong resolutions were adopted instructing their representatives in the legislature to oppose the project.

Counterfeiter Caught.  
PORTLAND, Ogo., February 8.—For some time past counterfeit dollars have been passed on farmers throughout the Willamette Valley but no clue was found to the counterfeiter until yesterday when the United States Marshal arrested John Davenport at Woodburn, Marion county, with some bogus coin in his possession. Davenport is one of a gang of four counterfeiters arrested here in August of 1884 and sent to the penitentiary for two years. The authorities are on the track of his confederates.

A Suicide Identified.  
PORTLAND, Or., February 8.—The man who recently committed suicide at Los Angeles, where he was stopping under the name of E. S. Dennis, proves to be P. M. Davis, a fugitive of Moonmouth, Or. His disappearance created no great stir, as his debts were so large that it was evident he had fled from the State.

THE BULGARIAN QUESTION.  
Correspondence Between Russia and England.  
LONDON, February 8.—Official dispatches which passed between the Russian and British governments regarding the Bulgarian question have been published. They show that the Czar approved of the course of General Kaulbars in Bulgaria and declared that efforts to restore the independence of that country would be continued. The late Lord Salisbury—then Foreign Secretary—said that though the Russian government's impression of events in Bulgaria differed widely from those of the British government, England was equally desirous of maintaining the treaty relative to Bulgaria and obtaining a pacific solution of the difficulty.

## GERMAN SOCIALISTS.

Driven From Their Hall at the Bayonet's Point.  
BERLIN, February 8.—The police attempted to disperse a Socialist meeting which was being held in the Beck brewery at Stettin last evening, but failed. A force of military was then summoned, and with fixed bayonets drove the people from the hall. Several of the people were wounded by bayonet thrusts; one man is reported to have been killed. The hall in which the meeting was held was completely wrecked.

At Magdeburg yesterday twenty-four Socialists were arrested on a charge of belonging to an illegal society.

Beach Will Run Against Hanlan.  
LONDON, Ontario, February 8.—Beach has accepted Hanlan's challenge to row on Nepean river. Hanlan will start for Australia about the end of August or the first part of September.

## A Retail Bank Fails.

LONDON, February 8.—The West London Commercial bank, limited, has failed. Its doors were not opened to-day. The concern did a small business, consisting mostly in loans to small tradesmen.

France Votes the Sinecure of War.  
PARIS, February 8.—The Chamber of Deputies to-day passed without debate or scrutiny the extra budget asked for the war and naval departments.

## WASHINGTON.

## The Repeal of the Tax on Tobacco.

## THE SWEET WINE BILL.

A Triganist Must Suffer—Railways Through Indian Reservations. Coast Defenses.

(Special to the Herald by the Associated Press.)  
WASHINGTON, February 8.—Speaker Carlisle to-day received a letter signed John S. Henderson, George D. Wise and Sam Randal, of which the following extracts convey the significance:

Dear Sir:—We regret exceedingly that you could not see your way clear to give recognition yesterday to some Democrats to enable them to move to suspend the rules, for the purpose of giving the House an opportunity to consider the question of the total repeal of the Internal Revenue tax on tobacco.

Your refusal to give this recognition, together with your letter of the 7th instant deserves more than passing notice. If two-thirds of the House are in favor of such repeal, it was a great responsibility for you to oppose such a large majority of the representatives of the people. Assuming, however, for the sake of argument, that the friends of the proposition consist of a less number than two-thirds their strength is certainly such that they ought to have been permitted to test the sense of the House upon the question, especially since the country is watching with intense interest the action of the House in respect to these matters, and the constituents of a large number of the members of the House have been urging them to obtain, if possible, consideration of this subject. We do not wish to be misunderstood. We earnestly desire from a party standpoint that recognition should have been given to some Democrats to make the motion, but we would vote cheerfully for the proposition, whether made by a Democrat or Republican. We believe that the friends of the repeal of the tobacco tax were so strong in the House that we would save to the oppressed tax payers of this country an annual reduction of taxation to the extent of \$23,000,000. If the motion for the repeal could be made in the House on Monday of this week, that is the latest day when such motion, to be effective under the rules, would be in order during the Forty-Ninth Congress. The motion, if made during the last days of the session, would certainly be too late to secure favorable consideration for the question in Senate. We think that revision of tariff and of internal revenue laws can be attained from time to time by reforming the obvious and greater grievance of the two systems, and that we should not refuse to make such reforms because sweeping changes have not been practicable. If the House was considered competent to deal with the silver question, and with the pension question, and with the oleomargarine question, free from the distaste of the Democratic caucus, we think it ought to be competent to deal with the question of the reduction of taxation. The caucus ought not now to be invoked to justify a policy of delay and non-action on this subject. We sincerely hope, with you, that some plan may yet be devised which will enable the House to consider the whole subject of revenue reduction and revision in a spirit of fairness to all interests in accordance with the letter and spirit of the platform of the National Democratic party adopted at the convention held at Chicago in the year 1884, and we assure you that we are ready to meet any of our Democratic associates who are prepared to treat with us on such basis.

THE SWEET WINE BILL.  
Heart and English Make an Effort in This Session.  
SAN FRANCISCO, February 8.—Senator George Hearst has sent a telegram to Senator Beck, at Washington, urging that the Sweet Wine amendment to the Fractional Gallon bill is of vital importance to this State. He says: "Our wine men will heartily assist the grain distillers in securing freedom from tax on alcohol used in the arts, if in the opinion of the Government it can be safely permitted."

William D. English, Chairman of the Democratic State committee, has forwarded a dispatch to Senator Gorman, at Washington, also on the Sweet Wine Amendment. He says that it is in danger of adverse action, or of an amendment that would prove disastrous to our wine industry. He asks that the Senate do its duty and pass the amendment.

SAN FRANCISCO, February 8.—A Bulletin Washington special says: Friends of the sweet wine bill despair of its passage at the present session of Congress. Its principal opposition comes from the Distillers' Association. They claim that the bill means an unjust discrimination against the Eastern wine-makers, who desire to use corn spirits to fortify their wines. Distillers claim that one spirit, after being refined and neutralized, is the same as any other spirit for fortifying purposes, and that wine-makers of Ohio, Virginia and other Eastern States should have the same privileges in relation to fortification as Californians. Dr. Rush, the agent of the Distillers' Association, says the distillers sell 2000 barrels of spirits annually to the wine-makers of Ohio alone. These wine barrels an influence upon legislation that is difficult to overcome.

Against a Polygamist.  
WASHINGTON, February 8.—A decision was rendered by the United States Supreme Court to-day in the polygamy case of Lorenzo Snow, petitioner, which comes up on appeal from the decision of the Third Judicial Court of Utah, denying petitioner's application for a writ of habeas corpus. Snow was tried and found guilty of polygamy upon three indictments, which were all alike except that they covered different periods of time.

A Railway Through an Indian Reservation.  
WASHINGTON, February 8.—The House Committee on Indian Affairs to-day ordered a favorable report on the bill granting to the Arizona Narrow Gauge Railroad Company the right of way through the White Mountain Indian Reservation in Montana.

## GEN. MILES' RECEPTION.

## The Los Angeles Board of Trade Receive the Hero of Arizona.

The Board of Trade of Los Angeles last night gave a reception at the National to Brigadier General Nelson A. Miles, Commander of the Department of Arizona and New Mexico, with headquarters in Los Angeles. The General, who is a magnificent specimen of a grand American soldier, was accompanied by his staff, consisting of Col. Alexander, major surgeon; Adjutant Dapery; Major Kern, Quartermaster; Major Glenn, Chief Paymaster; Capt. Weston, Chief Commissary of the Department; Lieut. McCaleb, of the Engineer Corps; Lieut. Clay, Inspector of rifle practice, a relative of Henry Clay; Dr. Sean-an Wood, surgeon; Capt. Pullman, 1st Regiment Quartermaster; Major Barber, Adjutant General of Department.

These gentlemen appeared in uniform and presented a fine appearance. They seemed to enjoy the change from fighting Apaches to a life in Los Angeles very greatly.

The General and staff were received in the northeast corner parlor and introduced by Mr. E. L. Stern, President of the Los Angeles Board of Trade, to the following members of the board and citizens: Hon. E. F. Spencer, S. C. Foy, Gov. Stanford, Wm. Niles, J. W. Green, Ed. Germain, Louis Jacob, French Consul; A. M. Lawrence, M. A. Newmark, E. Germain, Capt. Lewis, F. E. Brown, D. Prieto, Mexican Consul; C. L. Fisher, J. Seigman, Gen. J. R. Matthews, Mr. Last and representatives of the daily morning papers.

After the introductory exercises and a short period of social intercourse, President Stern addressed the General and staff in a graceful and eloquent speech, expressing happiness at meeting and greeting the gallant soldier and his accomplished staff who had not only conquered the Apache, but had won the admiration and affection of the people of Los Angeles and all of Southern California, Arizona, New Mexico and Old Mexico. His speech was full of grateful acknowledgments to the General and staff for their services to the people of the State.

Gen. Miles received the speech of greeting with visible emotion, and nobly responded for himself and staff. He acknowledged thanks for the reception and gratitude for the kindness and favor that had been extended to them since their arrival in Los Angeles, and hoped that they might at some future time be allowed the pleasure of reciprocating this most cordial greeting.

He said they had come here both for business and pleasure. Los Angeles was the central and strategic city of the department, with facilities for supplies and transportation exceeding those of any other location. They were delighted with the push and enterprise of the people of Los Angeles and with its social and domestic life. They had concluded that the lines had fallen to them in pleasant places. He stated that in the swift coming future no one could tell what great things were in store for the city of Los Angeles and Southern California.

The area of Arizona, New Mexico and Southern California exceeds the area of France, and was equal to Italy and Spain together, with products similar and superior to those countries.

The company then passed into one of the elegant dining rooms of the hotel, with Gen. Miles and President Stern at the head of the table. When the guests were seated President Stern proposed the health of Gen. Miles and staff, which was received with cheers. He then proposed the health of ex-Governor Stoneman, formerly Major General in the United States Army, who commanded the Department of Arizona in 1868.

The Governor said he had not expected to speak and had no address prepared, but he was anxious to say a few words to the audience with some anecdotes and with his experience in Arizona when the Quaker policy was introduced in that Territory, when he was required to christianize the Apaches before he killed them, and when necessary to kill them. He said he had been in the Territory for 40 years ago, as lieutenant in the U. S. Army, and then and here determined to end his days in this country, a resolution that he has continually kept in mind ever since. He said that he was proud to be here to-day, and that he was proud to be here to-day, and that he was proud to be here to-day.

Mr. Eastman, editor of the *Daily Tribune*, was next called upon to speak. He was well received by the audience, and paid a heartily tribute to the guests of the evening.

Captain Weston, the smiling and popular member of the staff, made a very felicitous speech. He held his audience in his excellent remarks, and his call out for a speech. He was in love with Los Angeles although he had no "lots for sale 60x160 feet" as other favored persons had at \$1000 per front foot.

Ex-Mayor Spence was then called upon and he said he had the assurance that all speeches would be made and that while ever would attempt to make one he would be shot. The capture of General Miles reminded him of the story of the Irishman who shot a cow and while searching for her came across a guide-board with the superscription, "To Manchester ten miles." This he interpreted with joy, because he stated the sign read "Two men chased General Miles more than ten miles and caught him."

Speeches were also made by Mr. H. Z. Osborne of the *Evening Express*, Mr. W. A. Spaulding of the *Daily Times*, by the representative of the *Daily Herald*, Mr. E. Germain, ex-President of the Board of Trade, Gen. John R. Mathews, Lieut. Dapery, S. C. Foy, Major Barber, Major A. S. Kimball, L. Loeb French Consul, Col. Alexander, Major Glenn, Lieut. Taylor, Capt. Pullman, Lieutenant Lawrence of the Board of Trade, E. E. Brown, Mr. Lewis, Wm. Niles, E. C. Nick, and the Ex. Stern, and General Miles closed the exercises with brilliant and eloquent speeches that electrified the audience, but lack of space prevents giving their addresses and those of a dozen other gentlemen. The occasion was a complete and grand success in every way.

## Measures of Modern Warfare in Congress.

## THE COAST DEFENSES.

Ordnance, Armor, Naval Warfare, Steel Manufactures and Matters of National Importance.

(Special to the Herald by the Associated Press.)  
WASHINGTON, February 8.—Senator Taylor, from the Committee on Public Lands, reported a bill granting certain lands to the city of Colorado Springs, for a water reservoir.

He presented a memorial from the National Board of Trade in favor of a general bankruptcy law.

The Senate being about to take up the House bills on the calendar, Mr. Hawley moved to proceed to the consideration of the bill to encourage

THE MANUFACTURE OF STEEL.  
And modern army ordnance, armor and other army purposes, and to provide heavy ordnance adapted to army warfare. He said he gave notice several days ago that he would make this motion. He was pushed forward to it by the Committee on Coast Defenses, the Committee on Military Affairs, and the general sentiment of the Senate, he believed, and of the country he knew.

The motion was agreed to—yeas 32, nays 21—and the bill was taken up for action. Several amendments were reported by the Committee on Coast Defenses and agreed to, and after explanation on some points of detail the bill was passed without division. The text of the bill is as follows:

SECTION ONE.  
That the Secretary of War be and he is hereby authorized to make contracts with responsible steel manufacturers after suitable advertisements to continue not less than thirty days in newspapers addressed, for a supply of rough bored, rough turned and tempered steel in forms suitable for heavy ordnance adapted to modern warfare, and steel finished for armor and other army purposes in quantity not to exceed 1000 gross tons, in quality and dimensions conforming to specifications and subject to inspection and tests at each stage of manufacture and including all parts of ordnance specified.

Provided, That no money shall be expended except for steel accepted and delivered, that each bid shall contract to erect for the United States a suitable plant, including the best modern appliances capable of making all steel required of finishing it in accordance with the contract and agreement. The contract is to deliver yearly a specified quantity of each calibre; and the time of delivery of small calibre is to commence at the expiration of not more than eighteen months; and that of the large calibre at the expiration of not more than three years from the date of the acceptance of the contract; and that all forgings shall be manufactured in the United States.

SECTION TWO.  
That the Secretary of War be and he is hereby authorized to erect at the Watervliet Arsenal, West Troy, New York, an arm gun factory in accordance with the report of the Gun Foundry Board of December 20th, 1884, and for finishing and assembling guns adapted to modern warfare of approved sizes, and for the manufacture of gun carriages and ordnance equipment for the army at a cost not to exceed \$1,000,000.

SECTION THREE.  
That for the purposes of the foregoing the sum of eight millions dollars is hereby appropriated out of any money in the treasury not otherwise appropriated, to be available during six years from January, 1887.

SECTION FOUR.  
That for the purpose of the construction of fortifications and other work as coast defense, such as masonry and earthwork, foundations for targets, casemates and magazines, submarine mines and galleries, exclusive of armor, in accordance with the recommendations of the Board, fortifications or other defenses, as appointed by the President of the United States, and that of the largest scale of Congress approved March 3, 1855—\$5,000,000 to be expended per direction of the Secretary of War is hereby appropriated.

## NAVAL ORDINANCE.

The Senate then took up and passed the bill to encourage the manufacture of steel for modern naval ordnance, armor shafting and other naval purposes, and to provide a heavy ordnance adapted to modern naval warfare. This bill is like the other in important particulars except that the gun factory is to be at the Washington Navy Yard, and that the fourth section of the bill is omitted.

The Senate then considered under special order to the consideration of the House Bills on the Calendar, to which there was no objection. Twenty bills were passed, among them are the following: To amend an act of February 26, 1855, to

## PROHIBIT THE IMPORTATION AND IMMIGRATION OF FOREIGNERS.

And aliens under contract to perform "labor," to amend section 5 of the act of June 10, 1880, in relation to the immediate transportation of dutiable goods.

The Senate then resumed the consideration of Ed's Tehuantepec bill and Mr. Morgan concluded his speech in support of it, and after an executive session the Senate adjourned.

## HOUSE.

Under the call of States a large number of bills were introduced and referred. Mr. Byrnes, of Pennsylvania, moved to suspend the rules and pass the Senate bill fixing the salaries of Judges of United States District Courts at \$5,000—Yeas 144, nays 109, not receiving necessary two-thirds.

On motion of Peters, of Kansas, the rules were suspended and a bill was passed granting the right of way through

## INDIAN TERRITORY.

To the Chicago and Kansas and Nebraska Railway Corporation.

## APPOINTMENTS.

W. G. Langford, Associate Justice of Washington Territory, H. E. Hayden, Clerk of the District Court of Alaska, F. A. Hoffman Jr., Appraiser at Chicago, J. R. Ryan, Assayer at Carson, Nevada. Postmasters—H. F. Fox, Healdsburg, California; J. G. Kinney, Provo City, Utah; O. M. Miller, Vacaville, California; Edward Ingram, Monterey, California.

Registers of Land Office—M. F. Boettie, at Fargo, Dakota; S. J. De la, at Glenwood Springs, Colorado. Receivers of Public Money—D. J. Sullivan, Prescott, Arizona. Were confirmed.

The documents prepared by Senator Ingalls and offered in the shape of a resolution regarding the rejection by the North River front to-day acknowledged to him that they were beaten. Freight was offered in less quantities than usual on Monday and the green hands were nearly equal to it. There were more men applying for work at the piers than can be accommodated with places.

## RETURNING TO WORK.

There was considerable activity on the piers of the river front this morning and freight was being moved with much more dispatch than on any day since the strike. The time that has elapsed since longshoremen and freight handlers quit work has enabled railroad and steamship companies to select, and in some cases train, sufficient men to keep freight moving steadily along, besides many of the old freight handlers and longshoremen are coming back to work—not at the places where they are known, but where they are least likely to be known.

## NATIONAL NOTES.

## Coast Defenses and Other Matters in Committee.

WASHINGTON, February 8.—The Conference Committee on the Fortifications Appropriation bill to-day heard several persons on the subject of coast defenses. Lieut. Zalinski described experiments he had been making with his dynamite gun and outlined a plan of defense based on the use of that instrument of warfare; while Gen. Benet, Col. Dana and Capt. Smith suggested methods by which war material now on hand could be utilized. Henry R. Jackson, ex-Minister to Mexico, addressed the Senate Committee on Commerce this morning in behalf of increased appropriations for the improvement of Savannah harbor.

To-morrow the committee will hear what Senators from Pennsylvania, New York, New Jersey, Delaware, Maryland and California may have to say in respect to appropriations for river and harbor improvements in their States.

## Stockmen in Council.

DENVER, February 8.—The second annual meeting of the International Range Association convened in the Tabor Grand Opera House this morning with about 250 delegates present, representing all the range country between the Missouri river and the Pacific. Address of welcome were delivered by Governor Adams and Mayor Bates. The Convention appointed a Committee on Credentials and took a recess till this afternoon.

## Consolidated Express Companies.

NEW YORK, February 8.—It is reported that negotiations are pending between the Adams Express Company and the Baltimore and Ohio railroad, by which the Adams Express may acquire control of the Baltimore and Ohio express business.

## A New Orleans Judge Guilty.

NEW ORLEANS, February 8.—The Supreme Court to-day found Judge Lazarus guilty of malfeasance and gross misconduct in office. Lazarus is Judge of the Civil District of the Parish of New Orleans.

## The Ohio Rotter.

CINCINNATI, February 8.—The river has continued to fall at the rate of one to two inches per hour. The waters have so far subsided that all trains have returned to the Central passenger depot and the freight embargo has been lifted.

## A Policeman Died.

CLEVELAND, O., February 8.—Detective Hurligan, one of the police officers assailed by desperadoes at Ravens, died this morning.

## Benches Postmaster.

WASHINGTON, February 8.—The President sent the following nomination to the Senate to-day: To be postmaster at Benicia, Cal., Wm. A. Foreman.

## Sullivan Confirmed.

WASHINGTON, February 8.—D. J. Sullivan has been confirmed to be Receiver of Public Money at Prescott, Arizona.

## THE FISHERIES.

## The Whole Bone of Contention to Go Before Parliament.

LONDON, February 8.—Sir James Ferguson, Parliamentary Secretary for the foreign offices, stated in the House of Commons last evening that the correspondence between Great Britain and the United States relative to the Canadian fisheries question would in a short time be laid before Parliament. The correspondence, he said, contains full information about the history of the whole affair down to the present date.

A dispatch from the Dominion government, containing suggestions as to the modus vivendi between Canada and the United States, is now on its way to London. The Imperial government could not, therefore, send proposals to Washington until the Canadian dispatch is received and considered.

## 5000 Abyssinians Hite the Dust.

ROME, February 8.—It is stated that the Abyssinians lost five thousand men in the battles in which the Italian forces were defeated near Massowah, in the Sudan on January 20th and 27th.

## Board of Supervisors.

**Tuesday, February 8, 1886.**  
 Board met pursuant to adjournment. Present, all board and the clerk.  
 Time of hearing petition of Glendale Railway set for February 12, at 2 p. m.  
 Permission granted M. G. Elmore for laying gas pipes in city of Pomona subject to rules of this board, and of the corporation of Pomona.

Petition and bond relating to the Sanford bridge on the Downey road filed; and John Goldsworthy, Thos. Carothers, and J. J. Tweedy appointed viewers.  
 Petition of the San Francisco Bridge Company relating to the Fifth street extension at Santa Ana filed, and the time extended for finishing contract to March 10th—the company to pay all expense incurred by such delay.

The County Recorder allowed for the month of February five deputies at \$100 each, three at \$75 and eleven at \$50 per month.

The chairman was instructed to have a governor put in the gas meters in the county property.

The County Surveyor was allowed \$15 per month as office rent.

Bids ordered advertised in the Herald and Express for the construction of an addition to the County Hospital, plans to be seen in the office of A. M. Eitelman.

H. B. Thomas appointed road overseer of San Antonio road district.

Adjourned to February 9th, at 10 a. m.

## LETTERS FROM THE PEOPLE.

[The tenor of communications appearing in this column is not necessarily endorsed by the editor of the Herald. The writer who desires to be heard in it should always accompany his screed with his full name, not necessarily for publication but as a guarantee of good faith.]

**EDITOR OF THE HERALD:**—Who knows where Uncle Sam will erect the post-office? The plaza would undoubtedly be one of the finest locations, for there is no place in the business portion of the city where a building of architectural significance can produce more effect. The architect finds here space enough to develop and show his art. And this ought to be for one of the most important points.

The plaza must, of course, be placed in a proper condition. A good start has been made. Let the gardener finish the lawn. The city will, without doubt, find it necessary to erect in the center a fountain of proper magnitude, say of a height of fifteen feet above the top of the basin; and this ornament valued at \$2500 to \$3000, with the United States building on the Breese or Jones property would give the "plaza" the appearance which the name demands.

Yours truly,  
 THE DOCTOR.

**The Rain at San Gabriel.**  
 SAN GABRIEL, Feb. 7, 1887.

The backbone of the "dry season" is broken. It commenced to rain at 2:30 p. m. of the 5th and has continued at intervals since. The precipitation, as indicated by a standard rain gauge, up to 6 o'clock this morning, has been one and thirteen hundredths (1.13) inches with a good prospect for more. The mountains are white with snow for the first time this season, and everybody is jubilant, as a fair crop is now assured. Though less rain had fallen here up to the 1st of February than for the same time in any season for the past twelve years, yet the ground has been in better condition and the early sown grain has looked better than in some seasons of much greater rainfall. Those who quit plowing and sowing grain, as many did, will now "buckle on their armor" and take a fresh start. In fact it is not easy to estimate the good done by this timely storm.

## The Installation Ceremonies

Of the Young Men's Institute No. 23 of San Diego, took place on Sunday afternoon, January 30th, at Institute Hall in Johnson Building, San Diego, and was witnessed by a full membership. The ceremonies, which were in accordance with the new mode of installing officers in that order, were performed in a most impressive manner by W. D. S. Harrington, of Los Angeles Branch No. 14, the district deputy for Southern California. The following were elected officers: President, William T. Kearns; first vice-president, Francis Murtha; second vice-president, Thomas A. Nerney; recording secretary, James Moore; corresponding secretary, James Rooney; financial secretary, J. McChryshel; treasurer, Edward Fison; marshal, George Knowles; surgeon, Dr. C. C. Valle; executive committee, Dr. C. C. Valle, James Rooney, Weldon C. Nerney, Francis Murtha and Geo. Knowles. This institute is in a flourishing condition and new members are being added at each meeting.

## SUMMONS.

IN THE SUPERIOR COURT OF THE State of California, in and for the County of Los Angeles.

Addie McFarland, Plaintiff, vs. Andrew McFarland, Defendant.

Action brought in the Superior Court of the State of California, in and for the County of Los Angeles, and the complaint filed in said court of said Superior Court, in the office of the Clerk of said Superior Court, and the State of California, and the County of Los Angeles, in and for the County of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service), after the service on you of this summons, if served within this county, or, if served elsewhere, within thirty days, or judgment by default will be taken against you according to the prayer of said complaint.

The said action is brought to obtain the judgment of this Court dissolving the bonds of matrimony now existing between plaintiff and defendant, and awarding the custody of the three minor children named in the parties to plaintiff, and for such other and further relief as to the Court may seem meet, and for costs of suit, and for the relief demanded in the complaint.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will cause your default to be entered and will apply to the Court for the relief demanded in the complaint.

Given under my hand and the Seal of the Superior Court of the State of California, in and for the County of Los Angeles, this fourteenth day of January, in the year of our Lord one thousand eight hundred and eighty-seven.

## NOTICE TO CREDITORS.

## OAKLAND CLIMATE.

What a "Tenderloin" Think of the "Citrus Belt." People in the "waste belt" and middle of the State, and those in the Shasta citrus belt have been warned time and again not to attempt to visit Los Angeles as a health resort, a climatic paradise of semi-tropic temperature, or land for the tourist to seek repose. But these misguided people would not be warned. They insisted on coming here and enticed the unwary Eastern visitor away from the sunny south and the land where the orange blooms. Here is what one such writes back to the HERALD as an indication how he finds the "Central Citrus belt," her climate, hotels and other attractions:

OAKLAND, Cal., February 6, 1887.  
DEAR SIR: There has been considerable aid about the climate of Oakland and vicinity being superior to that of Los Angeles. Now, in justice to the Los Angeles country, I must say that this is erroneous as far as the climate is concerned, and when it comes to accommodation for travelers and Eastern people who are seeking for homes, etc., Los Angeles is far ahead of any place in the State, outside of San Francisco itself, for hotels and private boarding houses.

During the past few days, which have been very cold indeed, a man would freeze to death before he could find a suitable place to even get his feet warmed in Oakland. This town has no accommodation whatsoever for strangers and still they are talking of Alameda county and what fine chances there are for people who wish to make this coast their home.

In the window of the building occupied by the Board of Trade there is on exhibition a branch or two of an orange tree, with a few small oranges upon them, and which, to the credit of the country, were raised here.

From what I saw in Los Angeles and from what I know of that country, the orange grower would quickly destroy a tree that would produce such fruit.

Their journals are running down the Los Angeles country, but they had better start at home first.

Excuse this writing, for my hands are nearly frozen and the sun is out.

Yours truly,  
AN EASTERN TRAVELER.

A LETTER FROM CONGO.

CONGO STATE, Central Africa, December 3, 1885.

MY DEAR PARENTS: Just back to camp after several hundred miles tramp, river swollen, etc., to find that your welcome handwriting is wanting. There has been a fight on the Upper River, and one man named Druar, a splendid fellow, an Englishman plucky to a fault, together with four Blacks, escaped, whilst one named Dubois, a Belgian, together with forty or fifty men, were killed during a sharp encounter. Druar, poor chap, I was with him a few days ago, has gone invalided home. He was kept thirty days in the bush, living on, I guess, perhaps only caterpillars and snakes. He had a finger shot off and two other wounds; only a few months ago he had a spear through his thigh. He's a gallant fellow. The Arabs would never have cleared them, had not the ammunition given out. They were lost, and what few Blacks escaped were eaten by the natives, to whom they had fled for shelter. No doubt. The war will be considerable excitement in the city of Brussels over this sad disaster to poor Dubois. I am now about sending another batch of over fifty of my series of African sketches and drawings to England, thus making a total collection of perhaps over several hundred.

Stanley writes me very flatteringly, offering me another appointment, some hundreds of miles up the Tiger River, and another pretty good offer is also made me. But owing to several fresh attacks of fever, which have tried me nearly as much as the bad kick I had in Borneo, I feel that I want a change rather badly and to hope to leave Central Africa in February for Europe, and subsequently Europe for California, thus making my third trip across to the States and my second to California.

I am still located many miles from any white man, but am not of the disposition that harbors melancholy. The one thing that I complain of at present, is being quite unable to have even a Christmas pudding—not a single festive ingredient is to be had. Never mind! I'll have an extra good killed and illuminate my camp with half a dozen tallow candles, make a wassail bowl with condensed milk, alcohol (which I preserve spiders, etc., in) and flavor it with malaga, put on a clean shirt and smoke my pipe, quite quietly you know, no ostentatious display, but just a quiet, homely, lovely Christmas. Adieu till we meet in California in 1887.

Your son,  
HERBERT.

The above interesting letter is from a son of General Ward, of Long Beach. It will be read with interest by all who wish to learn something about the center of the "Dark Continent."

A PLEASING CONTRAST.

In 1880 there were shipped from the Santa Ana railroad station 1151 boxes of raisins, in 1881, ninety-two carloads and 21,324 boxes, and the valley packed over 200,000 boxes. In 1880 we shipped to market 1456 boxes of oranges; in 1880, 62,748. In 1880 we exported 958 cases of eggs; 1886, 2017. In 1880 we sent away by rail 40,202 pounds of honey; in 1886, 1456 cases. In 1880 no grapes were shipped, but in 1886 there were forwarded from the Santa Ana station seventy-five carloads and 469 crates. In 1880 no poultry was shipped, but in 1886 the shipments from this station amounted to 44 carloads. No walnuts were imported in 1880, but in 1886 the shipments reached four carloads from this station. In 1880 not a gallon of wine was exported from this valley, but in 1886 the Santa Ana station shipped 50 carloads, 5 pipes, 20 kegs, 80 cases, and a few illustrations; still they serve to show the rapid advance in the productive capacity of the valley. They show how we have increased in material wealth, and give a good idea of what may be expected in the future. The Herald has always pretended that the Santa Ana valley was the garden spot of California; that it was appreciated by outsiders it only needed to be seen. Facts are stubborn things, and they have been given in these columns concerning our section. We have never knowingly exaggerated, but I intend to deceive, feeling that high-toned, flowery language was far from being as effective and convincing as facts and figures.—(Santa Ana Herald.)

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any other of the functions of the body. It is difficult to cure, for the reason that no one likes to take the medicine prescribed. ## To-Day's Criminal Trials.

Morris Pendergast will be tried at 10 o'clock to-day in the Superior Court for a robbery alleged to have been committed on the first of October in this city, upon the person of Frank Williams, by taking from him by force and violence a \$5 gold coin.

Alfred Roth will be tried at 2 p. m. for grand larceny. He is charged with stealing a horse and buggy from E. J. Smithwick, at Santa Monica, on the 9th of December last.

**Trouble Ahead.**  
When the appetite fails, and sleep grows restless and unrefreshing, there is trouble ahead. The digestive organs, when healthy, drive food, the nervous system, when vigorous and tranquil, gives its possessor no uneasiness at night. A tonic to be effective, should not be a mere appetizer, nor are the nerves to be strengthened and soothed by the unaided action of a sedative or a narcotic. What is required is a medicine which invigorates the stomach, and promotes assimilation of food by the system, by which the nervous system, as well as other parts of the physical organism, are strengthened. There are the effects of a healthy stomach, a medicine whose reputation is founded firmly in public confidence, and which physicians commend for its tonic, and healthful and other properties. It is used with the best results in fever and ague, rheumatism, kidney and urinary weakness, and other maladies.

**Now Has Faith.**  
I had been troubled all winter with cold and pain in the chest and got no relief from remedies recommended by druggists and physicians. At the same time I was advised by Dr. Bosanko's cough and lung syrup. I had little faith, but thought to try it as a last resort, now I believe even more than last year of its curative qualities. From the New York, Elizabeth, N. Y. sample bottle 50 cents at C. F. Heinemann's.

**Cure for Piles.**  
PILES are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, constipation, and the patient feels a moisture like perspiration, producing a very disagreeable itching, and a moisture like perspiration, producing a very disagreeable itching, and a moisture like perspiration, producing a very disagreeable itching.

**They Never Fail.**  
California's scenery cannot be surpassed in the world, with her beautiful evergreen valleys and her continuous snow-capped mountains. Abietene is produced on one of the mountains that intervene between the Pacific and the Atlantic oceans. It is a medicinal property, both as an external and internal remedy, and we also claim we have in ABIEtene COUGH BALM, ABIEtene OINTMENT, FLYER'S ABIEtene and Abietene and Verba Santa Cough Candy, remedies that never fail. See circular with each remedy. Sold by C. F. Heinemann.

**A FINE JOB.**

When the city jail was turned over to the city, it was considered that a very satisfactory place of confinement for prisoners had been provided by the authorities. This idea has, however, been changed by the unexpected way in which the prisoners have behaved. They have not only refused to work, but have also refused to eat, and at the same time, they have been very noisy and unruly. The city jail is now a very different place from what it was when it was first turned over to the city. The prisoners are now very noisy and unruly, and they have refused to work and eat. The city jail is now a very different place from what it was when it was first turned over to the city.

## The Flood.

The rain that began on Saturday afternoon at 4 o'clock has now continued in a series of showers for three and a half days. The rainfall has swept the whole coast from Washington Territory to Mexico.

All over the lower plains of Los Angeles the fall so far has been about two inches, but north of the city the fall has been about three inches in the high hills and at the base of the Sierra Madre.

All astronomical indications denote showery weather during the latter part of February and during March, and probably as far along as the 10th of April.

This condition of things will insure a beautiful grain, hay and vegetable crop, with an abundance of alfalfa for the pastures.

Mr. Deussen reports a fall for the storm up to 1.25, yesterday of 2.15 inches, and 2.50 inches for the week.

Mr. Abbott Kinney reports 2.25 inches up to 7 o'clock yesterday morning. Since that time rain has fallen almost continuously in a moderate manner, and now has fallen to a great depth on the mountains, which assure a supply of water of great abundance for a year to come, in addition to the usual supply from the snows and rains.

In San Bernardino about 1.75 inches has fallen at last report, and at Riverside an inch.

At Anaheim over an inch has fallen and the same may be said of Santa Ana, Orange and Fullerton, where it is still falling. At Santa Monica and Chatsworth about the same amount has fallen as in this city, while San Fernando, Newhall and Saticum have had much more than the amount in the city.

Crescenta, Caliente, La Caliente and Pasadena have had about 2.50 inches and it comes down there on the just and the right.

Archuleta Valley, where craters are now active, is having an immense downpour that will be the resurrection of the desert. The water from the craters is now coming out in a fine rain.

San Diego entirely has had a fine rain in the valleys and is getting a number of inches on her mountains. When the clouds open a vista to the Sierra Madre the sight is remarkably beautiful. The great peaks and wild gorges are hidden with snow while the plain and the river valleys are white with the snow. The great peaks and wild gorges are hidden with snow while the plain and the river valleys are white with the snow.

All the land regions in a wonderful downpour of rain that means good crops and abundance of good things for all.

The Citizens' Water Company.

It is well known that the hill country west of Olive street has been deprived of water for the past two days. The Citizens' Water Company state that this great inconvenience is owing to the fact that Mr. Boudry having desired the machinery removed from the springs in the old place on Alameda street, and the city having shut the water from the ditch whence the new supply was to come simultaneously, the residents became inconvenienced. Heavy efforts are being made by the company to make good the supply, and it was earnestly hoped last evening that this would be accomplished by this morning. The citizens will bear the inconvenience as patiently as possible while the depression lasts. The matter would have been decidedly settled had not the city come to help out the citizens. Each household is a big catcher of the drip from the roof.

A Spanish Expedition.

Professor Antonio Capas of this city has received a letter from Don Jose Royal Fernandez, of Barcelona province of Catalonia, Spain, asking him to act as commissioner for the proposed Spanish Expedition to be held in that city, beginning in September, 1887, and lasting one year.

Professor Capas not being able to attend to this matter has informed it to the Board of Trade. There are lithographic plates of the buildings and grounds with the letter. Those interested can learn further particulars by writing to the secretary of the board.

So They All Say.

The clipping below from the Quincy, Michigan, Herald, is but an echo of what is said by every city in the United States:

"At present there are upwards of thirty of the inhabitants of Los Angeles, Cal., who were former residents of Quincy, and it reports as true the number will soon be increased by the removal from here of several more families. We would suggest that the name of Los Angeles be changed to Quincy."

Fluorine Wants a Railway.

Fluorine has it that the people of Fluorine are moving heaven and earth to induce the Los Angeles and Santa Monica Railway Company to divert the line of their road so as to take in that burg. They also want to draw the line from Riverside and Anaheim and thence to Los Angeles so as to embrace their town.

The reason of this is said to be because the Southern Pacific Company have moved down to the Downey junction, some distance below Fluorine.

The Detective Fire Alarm.

A fire started in the kitchen of a house at the corner of Downey avenue and Hancock street, East Los Angeles, on Monday night at 11 o'clock. The street was filled with people who came out to see the fire. A fire alarm was rung and the fire was extinguished.

To the Credit.

In the Herald to-day may be seen the announcement that Messrs. Palmer & Ray, the famous type founders of San Francisco, propose to open a branch house in this city. This news will be hailed with delight by all the printers of Southern California. Hereafter all orders in this line can be filled right at home, with all possible dispatch and facility.

What the California Delegation Do.

The Secretary of the Board of Trade in receipt of letters from Col. M. E. Markham and Senator Williams, in which they speak of their efforts to pass the Federal Government bill and to get \$25,000 to continue the Signal Service in this city. They are also trying to get the Marine Hospital at San Pedro.

## Another South River.

A telephone from Comstock, to the Comstock Fruit Mining Company, in this city, reports the striking of another stream of water in the Nevada which they are now mining in one of the great changes which are being made on the property belonging to the company.

This corporation is opening four claims with great gratifying results. When a representative of the Nevada Mining Company visited a few days since, about fifty miles from the Nevada Mining Company.

After the strike was made, on Saturday last, before the water began, the flow had been increased to nearly 100 inches. The company has made six great excavations of 2,000,000 gallons each, for the storage of 12,000,000 gallons of water which will not be disturbed by floods or made impure by the mud of swells or turbulent streams of mud and silt.

When all the changes are completed it is expected that 2,000,000 gallons of water will be supplied to the new settlement. The development of water has been urged in the Nevada for several years and it is pleasant to see the operation a supreme success.

The Nevada Mining Company, W. W. Williams, M. L. Warren, J. C. Lynch and M. L. Williams, know as such well as all. They seem to be determined to make their beautiful neighbor Nevada. The work of progress goes on apace and every day some new water supply is developed, and some new farm prepared for cultivation.

Direction of Officers.

The Los Angeles and Santa Monica Railway Company held their annual election of officers yesterday. Following is the result: R. F. Longmire, President; J. S. Northrup, Vice President; J. S. Northrup, Secretary; M. L. Warren, Treasurer. The Directors are Peter Taylor and H. W. Mills.

## PEOPLE'S STORE.

## We find that it will take us all the month, and hard work work at that, to dispose of all the articles now in our stock, and which we have decided to close out. To give a better idea of what may be expected daily in the way of our special bargains, we will place what is to be sold each day in our center show windows a day in advance of their sale, so that in passing you will have an opportunity of seeing if they interest you.

## BUSINESS MUST BE PUSHED.

## There is a tendency toward inactivity, superinduced by various causes, but that all never do around the People's Store. We never sold as many goods in any preceding month as in January past, and never sold them anywhere near the price. Goods are getting so low that, compared with the price a year ago, there is not an article in our stock that is not a bargain, and this in the face of the steady advance of all goods, both of European and American manufacture. We propose to do even better, and sell goods still cheaper. We have it in our power to do so, but heretofore, out of regard for others, we have not sought to break prices too much, but henceforth it shall be single warfare; let every man look out for himself; the cheapest man wins.

## Why we can do this is easily explained. Our facilities are the very best; our men are on the spot every working day of the year eager to take up anything and everything that is cheap; we do an absolutely cash business, both wholesale and retail, and what we sell during the day we reinvest the following day. We have more money than is necessary for our business, and, instead of carrying just barely as much as can be paid for, we can invest in merchandise and speculate on it, carrying twice and thrice as much as our business necessitates. There is not a time when we cannot take advantage of a dull or forced market, because we are overstocked. We discount all our bills, which is a thing very few merchants do or have the means to do. We buy our goods direct from the manufacturer and save a middleman's profit, and stand here ready to sell goods to the cash-buying whole-sale trade cheaper than they can be bought in California anywhere. We have built our business upon the position of being able to sell cheaper than others in similar lines, and we have done it, as the growth of our business attests.

## In a few months, as soon as mason and mechanic can erect it, the PEOPLE'S STORE will occupy one of the largest stores in this State, and more than double the frontage of any other similar business in this town. We ask your patronage, because we think we sell the same quality of goods cheaper than any house in town. You can easily convince yourselves of that by consulting our prices and comparing them with others. We never have suffered in the race of competition and comparison; always succeed in making a customer. So many strangers have come amongst us of late that we address our remarks to them; our old customers speak from their experience. The newcomer always wants to know the best place to trade at, and, while our modesty forbids our saying the People's Store, we recite the facts to show that the best place is the People's Store.

## JERSEYS! JERSEYS! JERSEYS!

## We have determined to close out our entire stock of Jerseys, and have placed the prices so that they will all be sold this week. If you want anything in the Jersey line, drop in and see us. We think we can interest you.

## COMFORTERS! COMFORTERS! COMFORTERS!

## Have been a scarce article with us for the past three weeks. We have just received 20 bales and more coming. We mean a scarce article at the prices we sell them at. We could get comforters, but we would have
